New! DCVC Mental Health Counseling Reimbursement Policy

DCVC is pleased to announce that it has revised its Mental Health Counseling Reimbursement policy to streamline the process.

- * Effective July 1, 2018, providers will only have to complete a DCVC Mental Health Counselor's Report upon engagement.
- * Providers will then complete a DCVC Additional Counseling Sessions Request Form if the counselor determines the victim/patient requires more than 20 sessions.
- * By law, DCVC may only approve a maximum of 40 sessions.
- * Please note the referenced forms are attached.

This revised policy is in compliance with SC Law Section 16-3-1180 (A) (1) and was revised to meet the current needs of our victims.

Please forward this information to anyone who may benefit.
